Scaling

PURE Performance

Improved ergonomics, better hygiene

Inclined front panel for better visibility

- Easier access to settings and handpiece

Flat glass surfaces and uncluttered design

- Totally watertight and hygienic for simple cleaning
- Removable power knob
- Easy infection control

Intuitive settings

Easily choose the correct power settings for each tip according to the Color Coding System™ (CCS)

- High power amplitude for fast procedures
- Reduced risk of tip breakage

Illuminated power knob

- High visibility of settings chosen
- Soothing colored lights indicate power level

Exclusive handpiece holder

- Can be installed on the front or side of the device
- Reduced risk of handpiece falling
- Removable and autoclavable silicone
- Unbreakable new design

NEWTRON® SLIM B.LED handpiece perfectly balanced

Thinner body and more flexible cord

- Better grip for perfect treatments
- Detachable and autoclavable nose cone

Titanium interior

- Super light weight
- Extremely resistant to corrosion for a long life

Excellent intraoral visibility

- 6 High power LEDs (100,000 lux)

Cruise Control® System

- Forty years of research and know-how led to the development of the Cruise Control® System.
- The tip always tuned to the right ultrasonic frequency depending on its environment
- Powerful and regular vibrations providing smooth and fast treatments more comfortable for the patient

Diamond-Coated

Currettes
