

## Positioning Training Checklist

We are focused on providing the best customer service and emphasizing the importance of proper training. Positioning training results in the most diagnostic quality imaging and sensor damage preservation.

Below you will find positioning training guides and a checklist for your reference.

You will need...

- To schedule a date and time.
  - Set aside 1½ hour for training.
  - Please avoid any busy areas or distractions.
  - Continues X-ray shooting, engagement, and participation.
  - 2-4ppl per training.
- To set up and prepare your radiography equipment.
  - Call us to troubleshoot getting equipment set up and test prior to training.
- Medium K9 & Feline skull. (Can be bought on [www.skullsunlimited.com](http://www.skullsunlimited.com))
- Positioning Guides
  - Print and review prior to training. (Have a copy on hand available during the training.)
- Sensor & Sensor Checklist
  - Review the checklist for proper sensor maintenance prior to training.
- Anydesk Download
  - You will need to provide us with the access code. (Preferably use Google Chrome or Microsoft Edge, NOT Internet Explorer).
- Facetime Application iPhone/iPad Required
  - Please provide us with the email/phone number registered to the Facetime application.
